

**Subject and Author  
Index**

**Volume One  
January-December 1971**

**Adrenergic-receptor blocking drugs**  
alpha and beta, clinical use of, Mar., 16

**Advances in therapeutics**  
alpha and beta adrenergic-receptor blocking drugs,  
Mar., 16  
clonidine, antihypertensive agent, July, 39  
L-arginine in treatment of cystic fibrosis, Aug., 45  
new developments in contraceptive agents, Jan., 55  
sickle-cell anemia, oral urea prophylaxis, May, 24  
sickle-cell crisis: a new approach to treatment of,  
Feb., 56  
stimulation and inhibition of fertility through hypo-  
thalamic agents, Nov., 29

**Anemia**  
sickle-cell, oral urea prophylaxis, May, 24  
sickle-cell crisis, new approach to treatment of, Feb.,  
56

**Antiarrhythmic therapy**  
principles of, July, 24

**Anticoagulant therapy**  
an overview, Jan., 9

**Antihypertensive therapy**  
efficacy of, Nov., 77

**Antimicrobial drug combinations**  
a review, May, 52

**Antiparkinson drugs**  
in psychiatry, rational use of, Sept., 23

**Arthritis**  
hyperuricemia and its management, May, 29  
indomethacin in treatment of rheumatic disorders,  
Jan., 34  
rheumatoid, gold therapy in, Feb., 19  
rheumatoid, treatment of with L-histadine, Apr., 18

**Asthma**  
drug therapy for status asthmaticus in children, June,  
10  
drug therapy of asthmatic child, Mar., 29

**Bladder**  
role of drug therapy in catheterization of, Feb., 15

**Cardiovascular disease**  
cardiac disease and hypertension, management of,  
Sept., 23  
principles of antiarrhythmic therapy, July, 24

**Catheterization**  
of the bladder, role of drug therapy in, Feb., 15

**Cerebrovascular disease**  
and hypertension, Apr., 22

**Clonidine**  
a new antihypertensive agent, July, 39

**Contraceptive agents**  
new developments in, Jan., 55  
present status of oral contraceptives  
(Part I), Dec., 14

**Cystic fibrosis**  
L-arginine in treatment of, Aug., 45

**Depressive illness**  
chemotherapy of, Feb., 9

**Diabetes mellitus**  
UGDP study and treatment, June, 54

**Drug interactions**  
blood components-tissue interactions, Mar., 41  
interrelations of L-dopa and cholinergic mechanisms,  
Apr., 53  
survey of, for practicing physicians, Oct., 48  
warfarin, Jan., 20

**Drug user**  
office evaluation and treatment of, July, 7

**Drugs and society**  
hallucinogens and perceptual changes, Sept., 34  
marihuana and psychedelics, social use, June, 43  
methadone maintenance and alternative methods for  
heroin addiction, Aug., 16  
methadone therapy for heroin addiction, Jan., 23  
office evaluation and treatment of drug user, July, 7

**Epilepsy**  
drug therapy and management of child with, Oct., 15

**Fertility**  
stimulation and inhibition through hypothalamic  
agents, Nov., 29

**Geriatric drug therapy**  
prescribing instructions for geriatric patients, Mar., 24

**Gold therapy**  
in rheumatoid arthritis, Feb., 19

**Gonorrhea**  
treatment and control, May, 8

**Gout**  
and hyperuricemia, management of, May, 29  
the unexpected in treatment of, Feb., 23

**Hallucinogens**  
and perceptual changes, Sept., 34

**Hemophilia**  
management of, Mar., 55

**Heroin addiction**  
methadone maintenance and alternative methods,  
Aug., 16  
methadone therapy for, Jan., 23

**Hormone therapy**  
for impotence, Feb., 27

**Hypertension**  
and pregnancy, current management, June, 28  
clonidine in treatment of, July, 39  
complicated by cardiac disease, management of, Sept.,  
11

### Hypertension (*continued*)

- complicated by cerebrovascular disease, management of, Apr., 22
- efficacy of antihypertensive therapy, Nov., 77
- malignant, management of, Oct., 33
- mild and moderate, treatment of, Aug., 11

### Hyperuricemia

- and its management, May, 29

### Hypothalamic agents

- for stimulation and inhibition of fertility, Nov., 29

### Immunization

- current status of, July, 45

### Immunosuppressive drug therapy

- an overview—agents, specific applications, complications, Apr., 9

### Impotence

- hormone therapy in treatment of, Feb., 27

### Indomethacin

- use in rheumatic disorders, Jan., 34

### L-arginine

- in treatment of cystic fibrosis, Aug., 45

### L-dopa

- in treatment of parkinsonism, Mar., 10

### L-histadine

- in treatment of rheumatoid arthritis, Apr., 18

### Lupus erythematosus

- systemic, treatment of, Sept., 61

### Marihuana

- and psychedelics, social use, June, 43

### Methadone

- for heroin addiction and alternative methods, Aug., 16
- therapy for heroin addiction, Jan., 23

### Narcotics

- and narcotic antagonists in clinical practice, Nov., 41

### Parkinsonism

- drug therapy for, Feb., 34
- L-dopa in treatment of, Mar., 10

### Pesticide

- poisoning in children, Nov., 15

### Pharmacologic essentials for clinical practice

- narcotics and narcotic antagonists in clinical practice, Nov., 41
- survey of drug interactions for the practicing physician, Oct., 48

### Placebo

- effect of treatment, Dec., 45

### Pneumonia

- management of, Dec., 65

### Poisoning

- pesticide, in children, Nov., 15

### Pregnancy

- and hypertension, current management, June, 28

### Psychiatric patients

- treatment with major tranquilizers in office practice, Oct., 74

### Psychedelics

- and marihuana, social use, June, 43

### Rheumatic disorders

- gold therapy in rheumatoid arthritis, Feb., 19
- indomethacin in treatment of, Jan., 34
- treatment of rheumatoid arthritis with L-histadine, Apr., 18

### Syphilis

- resurgence of, recognition and drug therapy, Apr., 47

### Tranquilizers

- major, for management of psychotic and neurotic patients in general office practice, Oct., 74

### Venereal disease

- gonorrhea, treatment and control, May, 8
- syphilis, resurgence of, Apr., 47

### Warfarin

- interactions, Jan., 20

60
